

## THIRTY-TWO

## LIVES LOST

### Blaze in Missouri Athletic Club.

### FULL EXTENT OF ST. LOUIS FIRE UNKNOWN

### Probably One Hundred Persons Were in the Building at Time of the Disaster.

St. Louis, March 10.—Thirty-two lives were lost in the Missouri Athletic club fire, officers of the organization believed, after spending twenty-four hours in an effort to complete the list of guests in the building when the fire broke out Sunday night.

Only seven bodies have been recovered. At least twenty-five others are missing.

The firemen continue to pour water on the ruins of the building from twelve nozzles and the full extent of the tragedy will not be revealed until the fire is out and the water is pumped from the blackened pit.

Seventeen persons who were injured in the fire are under treatment at public and private hospitals.

Much difficulty was experienced in trying to identify the recovered bodies of the dead and some bodies were identified under two or three different names.

#### Origin of Fire a Mystery.

The cause of the fire is still a mystery. Reports that the blaze was accompanied by a terrific explosion, indicating that the fire was due to efforts of bank robbers trying to dynamite the Boatmen's bank, were unconfirmed.

Reports of explosions were denied by the night watchman of the bank, who turned in the first alarm of fire, and the explanation was given that the reports heard by the assistant fire chief might have been due to the falling of the elevators when their cables broke. It was also reported the bursting of a gas pipe in the kitchen on the third floor was the cause of the conflagration.

The number of guests who had rooms in the clubhouse, either permanently or for the night, was about 100. Many of these escaped, checked out before the fire; others, it is thought, were not in the building when the fire broke out; some were injured in leaving the building and the rest are listed among the dead or unaccounted for.

#### Hundreds Visit Morgue.

Thousands of spectators crowded the streets leading to the burning building, but were held back by the police. Hundreds visited the morgue in an attempt to identify the bodies which were taken there as fast as recovered from the fire.

W. T. Hawkins, engineer for the club, said he started one of the elevators for the upper floors as soon as the alarm was given. The smoke, he said, made it impossible to run the elevator to the fifth and sixth floors, where the guests were asleep. At the third floor the smoke was so dense that the engineer reversed the car and started back. As he did so the cable broke, letting the car fall to the basement.

The flames on the Washington avenue side of the building became so intense that the fire escape on that side became red hot. Streams of water were played about it in an attempt to keep it cool.

## OPPOSE HOME RULE PLAN

### Unionists Give Asquith's Proposal Cool Reception.

London, March 10.—The British government's plan for the conciliation of the Unionists of Ulster in connection with the Irish home rule bill, laid before the house of commons, met with a cool reception from the Unionists.

The terms of Premier Asquith's offer were that poll should be taken of the parliamentary electors of each county of Ulster to decide whether they should be excluded from the operation of the bill for six years from the first meeting of the new Irish parliament. This undoubtedly would result in the exclusion from Irish home rule of the counties of Antrim, Armagh, Londonderry and Down.

Andrew Bonar-Law, leader of the opposition, objected. He urged the dissolution of the imperial parliament and the same sort of referendum for the United Kingdom as the government was offering to the counties of Ulster.

#### Compress Plant Burned.

Waco, Tex., March 10.—Property valued at a half million dollars was destroyed when the plant of the Exporters and Traders' Warehouse and Compress company in East Waco was burned. The loss includes the \$100,000 plant, 5,000 bales of cotton, eight box cars of the Missouri, Kansas and Texas railroad and other buildings of the company.

## OFFICERS FIGHT WITH VAGRANTS

### Deputies Drive Unemployed Out of Sacramento.

### FIREMEN AID WITH WATER

Sacramento, Cal., March 10.—Starving and bruised, 1,000 members of the unemployed armies which have held Sacramento in terror for forty-eight hours were driven from the city by 500 armed deputy sheriffs.

Shivering with cold from the drenching given them by the fire department and swearing vengeance on Sacramento the armies are now encamped in Yolo county, between this city and Broderick. Several hundred armed deputies are preventing a retreat or advance.

The unemployed were driven off the Southern Pacific right of way by officials armed with pick handles and clubs. They refused to go but several streams of water played upon them by firemen started a mad retreat.

In fleeing through Second street the unemployed attacked street cars, hurling rocks and sticks through the windows, and forcing passengers to take refuge on the car floors.

At every cross street the armies, which had become a leaderless mob threw up barricades and battled with the police and deputy sheriffs until dislodged by the firemen. Stores and saloons were wrecked.

With nineteen of the armies' officers, including "General" Kelley, in jail, charged with vagrancy, many of its members in the hospitals and jails with broken heads and the remnant encamped on the plain overlooking the city, the march to Washington has been abandoned, it was declared.

## LIABILITIES OF \$2,026,257

### La Crosse Railway Contractor Has Assets of \$1,200.

La Crosse, Wis., March 10.—With liabilities of \$2,026,257 and assets of only \$1,200, of which \$300 is exempt, Arthur E. Appleyard, a railroad contractor, has been summoned to appear before Referee in Bankruptcy C. L. Baldwin of La Crosse, at Ashland, Wednesday, and relate his business experiences the past few years.

The sensational aspect of the case was revealed by the serving of an injunctive order, issued by Judge A. L. Sanborn of the United States court, prohibiting the bankrupt petitioner or any other person from tampering with or destroying the books or papers pertaining to the financial operations of Appleyard.

The purpose of the hearing is to adduce full and accurate information respecting the financial operations of Appleyard and to ascertain if all assets have been listed in the bankrupt petition.

## JURY ACCUSES DETECTIVE

### Holds Recent Slaying in St. Paul Saloon Unjustifiable.

St. Paul, March 10.—Detective John Delaney killed Joe Sweeney in the Hardy saloon Feb. 27 and his act was not justified, according to the verdict of the coroner's jury. The jury was out less than an hour.

In holding Delaney not justified in his act the jury said: "Delaney was a party to forming a plot with Detective J. C. Thomas, J. J. Murphy and one Higgins for the purpose of arresting Sweeney and James Reilly in the act of robbing the saloon, thereby inviting homicide."

A short time after the verdict was returned Delaney was suspended from the police force by Chief Michael Gebhardt. Thomas was not suspended.

## NEW POWDER TOO STRONG

### Sends Breech Block Through Thick Concrete Wall.

New York, March 10.—Unable to withstand the energy of a new powder a twelve-inch gun at the Sandy Hook proving grounds exploded, sending its 2,000-pound breech block through a thick concrete wall, while parts of the barrel were hurled a half mile out to sea.

Lieutenant Chase Pendleton, who, with eighteen men, had taken cover in a shelter trench, of which the concrete wall was a part, was cut slightly about the leg when he was struck by a fragment of steel.

Several of the men were thrown from the platform on which they were standing.

#### Big Grain Elevator Burns.

Buffalo, N. Y., March 10.—The 1,000,000-bushel elevator owned by the Connecticut Terminal railroad was destroyed by fire. The loss was placed at about \$400,000 by Charles J. Strasser, general agent of the company.

## SENATOR SHIVELY.

Defends Wilson's Mexican Policy.

## WOMAN IS SEPARATE ENTITY

### May Establish Domicile Aside From That of Her Husband.

Washington, March 10.—The supreme court attacked the ancient legal fiction that woman's identity is swallowed up in that of her husband.

In England for centuries, it was pointed out, woman was prevented from acquiring domicile for any purpose in a jurisdiction other than that of her husband.

The court said this "fiction was vanishing" and decided that a wife may establish a new domicile to bring any kind of suit, in event her husband is disloyal to her. The effect of this decision was to approve the judgment for \$35,000 procured by Mrs. Katherine Ozont of Fayetteville, W. Va., against Miss Margaret H. Williamson for the alienation of her husband's affections.

## PARDON ALONE CAN SAVE IRON WORKERS

### Supreme Court Refuses to Review Sentences.

Washington, March 10.—No appeal to the president for a pardon for the convicted dynamiters is contemplated. It was said, following the supreme court's action in refusing to review the penitentiary sentences imposed upon Frank M. Ryan, president of the International Association of Bridge and Structural Iron Workers, and twenty-three of the association's members.

Senator Kern, leading counsel for the iron workers at their trial in the federal court at Indianapolis, was responsible for the statement. Only a pardon stands between the men and the penitentiary.

The labor men were convicted technically of conspiracy to carry dynamite and nitroglycerin on interstate passenger trains. In furtherance of this conspiracy it was charged that Orrie McManigal carried these explosives on such trains to Chicago, Tiffin, O., Los Angeles, Cal., and scores of other cities from coast to coast.

Evidence was presented to show that one of the explosions alleged to have grown out of the conspiracy was that which destroyed the Los Angeles Times building. The conspiracy was alleged to have existed from 1906 down to the indictment in 1912.

## DYNAMITE PLOT AT MINE

### Dying of Fuse Saves Lives of Shift Boss and Forty Workers.

Virginia, Minn., March 10.—Richard Ledcock, shift boss at the Minorena mine, and forty miners narrowly escaped death when unidentified persons, thought to be discharged miners, placed three sticks of dynamite under the dry house. The fuses "died" before reaching the explosive.

Ledcock, a member of the Salvation Army, is said to be strict with his men, and has discharged some within the past month.

Dynamite is missing from the mine supply.

#### Asquith's Words.

During discussion of the woman suffrage resolution in the senate Senator Asquith in talking on the constitution had something to say about "willy nilly," also "nolens volens." And as if the senate did not get the full import of these remarks he repeated them. The Hill, who was for many years the sergeant-at-arms on the Democratic side of the house, used to speak of men who would not vote, saying that the next time he would "grab them by the nape of the neck and throw them in the nolos volens."

#### Have Heard It Before.

In some of the contests that are going on in different states for nominations in the primaries we hear the old familiar words, "We will win if they don't count us out." It has been the custom of political observers at once to put in the losing column any set of politicians and candidates who begin talking that way. Generally it is an excuse in advance for probable defeat.

## SPEEDING UP TO PASS MONEY BILLS

### Agricultural Measure to Occupy Much Time, However.

## TRUST BILLS TROUBLESOME

President to Experience More Difficulty in Amending Sherman Law Than in Passing Tariff and Currency Acts. Taft, White House Guest, Found Mexican Crisis Still on Horizon.

By ARTHUR W. DUNN.

Washington, March 10.—[Special.]—Both houses of congress have shown a disposition to "speed up" a little with the appropriation bills, and it might be possible to get these supply bills through before the middle of June. Such will not be the case, however, if the senate takes as much time on the other bills as it has taken on the post-office bill.

Such measures as the postoffice, army and other administrative bills take a great deal of time. Any measure that affects conditions throughout the whole country usually requires considerable discussion. On that account the agricultural appropriation bill will occupy congress for several days.

#### The Trust Bills.

President Wilson no doubt thought it was a troublesome period of his administration when he put through the tariff and currency bills. But that period of his administration was a summer vacation compared to the enactment of the trust legislation. The president has found more real difficulty in getting workable trust bills than anything he has yet attempted.

It was Vice President Marshall who recommended that "the patient be given a rest for a time" and that the trust legislation be postponed to the future, but President Wilson is not the kind that postpones legislation that he wants to have passed.

#### What Taft Thought.

There has been some speculation as to what ex-President Taft was thinking about while he was lunching with President Wilson less than a year from the time he left the White House. One thing that must have occurred to him was the fact that the legacy known as the Mexican situation, which Taft had left to Wilson, was still in evidence. President Taft told somebody how relieved he was to lay down the responsibility of the presidential office. He was certainly relieved to get rid of the Mexican situation.

#### Burlesque Has Company.

During discussion of the parcel post provision in the postoffice bill the senators who were trying to restrict the actions of the postmaster general were charged with determination to "cripple the parcel post." Frequently they would be asked by other senators if the postmaster general was not honest. This went along for some time until Senator Bryan of Florida became somewhat nettled at the pointed remarks of Senator Reed of Missouri. "The senator from Missouri asks if the postmaster general is not honest," said Bryan. "I hope he is, because I don't want the senator from Missouri to get lonesome."

Senator Thompson of Kansas is one of the men in the senate who has been a judge for many years, and his colleagues say that he has "the judicial mind." That also means that he is hard to convince at times, and when he makes up his mind it is almost impossible to change it. At different times Senator Thompson has had in idea of breaking away from the Democratic control, and it takes the strongest kind of effort to restrain him.

#### Raked Over the Coals.

Army officers were raked over the coals during consideration of the army appropriation bill. But they have become somewhat accustomed to it, as there are many severe critics of the army and the entire military system in congress. Particular objection is made to the "pampered pets" and "resplendent satraps," as men in the service are often designated. There were strong efforts made to reduce the cost of the army, particularly in small things, but the same efforts are made every year and usually without much avail.

#### Asquith's Words.

During discussion of the woman suffrage resolution in the senate Senator Asquith in talking on the constitution had something to say about "willy nilly," also "nolens volens." And as if the senate did not get the full import of these remarks he repeated them. The Hill, who was for many years the sergeant-at-arms on the Democratic side of the house, used to speak of men who would not vote, saying that the next time he would "grab them by the nape of the neck and throw them in the nolos volens."

## GOVERNOR RALSTON.

Judge Appeals to Indiana Executive for Protection.

## JUDGE SEEKS PROTECTION

### Life Is Threatened After Conviction in Election Fraud Case.

Indianapolis, March 10.—Fear that threats to kill the court officials and witnesses in the election fraud cases at Terre Haute, made in anonymous letters, will be carried out, prompted Judge Charles Fortune of the Vigo county circuit court and Special Prosecutor Roach to appeal to Governor Ralston for protection and suggest the calling out of the state militia.

While conferring with Governor Ralston Judge Fortune was notified that a man summoned by the grand jury in Terre Haute had confessed that only the presence of armed guards had prevented an attempt to dynamite the jurist's home.

## POLICE CAPTURE MRS. PANKHURST

### Fierce Conflict Occurs in Hall at Glasgow.

Glasgow, March 10.—Mrs. Emmeline Pankhurst, leader of the militant suffragettes, was arrested at a suffragette meeting in St. Andrew's hall after a fierce fight with the police, in which a score of women were hurt and several constables badly bruised.

Mrs. Pankhurst had just declared that women had as ample justification for fighting for the rights today as men ever had in the history of the world, when a large force of police dashed into the hall with their clubs drawn. In anticipation of trouble the suffragettes had stretched a network of barbed wire across the platform. The wire was concealed by floral decorations and proved efficacious, with the aid of masculine supporters of the suffragettes, using flower pots, chairs and anything they could lay their hands on as missiles, in holding back the officers for a few minutes.

Finally, when the police stormed the platform, a number of women produced clubs from under their cloaks and used them vigorously against the attacking party. In the midst of the fighting several blank cartridge pistols were fired and miniature bombs exploded. Frightened by the detonations many women fainted.

The police seized Mrs. Pankhurst and dragged her off the platform and through the hall to the street. Here an unsuccessful effort was made to rescue her as the police forced her into a taxicab and drove away to the police station.

## ASKS DAMAGES OF \$450,000

### Company Alleges Conspiracy to Control Rubber Trade.

Cleveland, March 10.—Alleging that six rubber companies—two incorporated under the laws of New York and four under the laws of Ohio—have combined and conspired together to monopolize the rubber trade and that as a result its business has been damaged to the extent of \$150,000, the Automobile Co-Operative Association of America, a New York corporation, filed suit here in the United States court for recovery of three-fold damages, or \$450,000, as provided for in section seven of the Sherman anti-trust act.

The defendants named in the petition are the B. F. Goodrich company of Akron, O., the B. F. Goodrich company of New York, the Diamond Rubber company, the Firestone Tire and Rubber company, both of Akron, O., the Republic Rubber company of Youngstown, O., and the United States Tire company of New York.

### GUARDSMEN DENY CHARGES

Testify as to Their Conduct During Michigan Strike.

Chicago, March 10.—Officers and members of the Michigan national guard, who were on duty in the copper country during the early days of the mine workers' strike, appeared before the congressional investigating committee here and denied all charges of violence and other unlawful acts.

Brigadier General Perley L. Abbey, former chief of staff for Governor Ferris, testified that it was the governor's wish that the situation should be handled with great forbearance toward the strikers.

Several witnesses took the stand to refute charges that the militiamen had trampled the American flag under foot in stopping the strikers' parade at Red Jacket early on the morning of Sept. 13.

Washington, March 10.—On behalf of eight states, Iowa, Kansas, Nebraska, Arkansas, Missouri, Oklahoma, North and South Dakota, and the National Live Stock association, Clifford Thorne, chairman of the railroad commission of Iowa, protested to the interstate commerce commission against the proposed advance of railroad freight rates in Eastern territory.

In arguing against the proposed increase Mr. Thorne explained that his people "heartily favor the elimination of all free services and favored ship-pers."

## EXCHANGE AT HIGH POINT

### Mexico City Banks Pay as High as 356 for 100.

Mexico City, March 10.—The exchange market here opened in a tally demoralized condition. No fixed rates were quoted by any bankers, who bought and sold at constantly changing prices, paying as high as 356 for 100. The selling rate was usually 10 or 15 points higher. The highest point of exchange ever before reached was in November, 1902, when it touched 275.

## Shively of Indiana Replies to Fall of New Mexico.

## WARM DEBATE OVER MEXICO

Senator Fall Narrates Many Incidents of Outrages to Americans and Asserts Present Policy is Inadequate. Senator Shively Says Administration Is Aiming to Work Out Peaceful Solution.

Washington, March 10.—Excitement over the outspoken demand for intervention in Mexico, made in the senate by Senator Fall, Republican, of New Mexico, did not diminish until after Senator Shively of Indiana had spoken for the administration. The galleries were crowded to overflowing for hours. Senator Shively expressed regret that the subject had been discussed in open session. He asserted that no adequate suggestion had been offered to compose the difficulty.

Senator Fall, in a lengthy narration of incidents of outrages to Americans in Mexico, held the interest of the senate and gallery for more than three hours. Assailing the policy of the administration as inadequate in the situation and declaring that President Wilson knew nothing about real conditions and had been mistaken in every act of his administration toward Mexico, the New Mexico senator pleaded for intervention to avoid inevitable war.

Emphasizing the danger of war with a great foreign power unless something is done speedily Senator Fall referred to comments in the German press over the killing of the British subject, Benton, by order of General Villa's courtmartial, and declared:

#### Points to Danger of War.

"When the German official press says that should a German citizen be murdered in Mexico, Germany would not acquiesce like Great Britain, then I say to you senators there is imminent danger of a conflict between the United States and this country with which we should always be at peace. I believe the American people can be left to handle any critical condition, provided they are informed on the subject. I am not one who believes, when the press is full of reports of outrages and details of Mexican horrors, that it can be 'incompatible with the public interest' to send to this senate details of outrages upon American citizens. I am not one who believes that the Constitution should be pushed aside and let one man assume the executive and legislative powers of the government."

Senator Shively, replying as acting chairman of the foreign relations committee, declared that Senator Fall's policy would mean actual armed intervention and that intervention meant war. He deplored that the situation had been thus discussed in the open senate, declaring that it would have a harmful influence upon the attitude and temper of the people of Mexico.

It will be all right for country newspaper men to visit Walker next summer, Farley Dare is a candidate for justice of the peace and they can't beat him.

There are many counties in the state in which mass conventions will be noticeable by their absence. Delegates from those counties can be filled by the Minneapolis convention when it meets.

The Ironton News brings out Hon. E. P. Peterson of Litchfield, as a candidate for the democratic nomination of governor, and says that "there is no other democrat in Minnesota that so truly represents the aspirations of that party."

Some fellow stole Bro. Kieley's grip off a train near Grand Rapids the other day. The thief had probably seen the financial statement and tax list just published in the Herald-Review and thought Kieley had the proceeds with him.

An Eveleth man has invented a suit and helmet absolutely fireproof, and to prove that he isn't afraid of his own medicine he stayed in a furnace five minutes and came out smiling. The trouble is, you can't take one with you when you die.

The Maxfield sentiment throughout the district is growing. In fact has reached that stage where his nomination as the republican candidate for congress is not a possibility but a strong probability, even against Congressman Lindbergh should he file as a republican.

Frank Day's suggestion for some one to call a "hospital mass meeting at once" is probably for the purpose of taking care of the dead and dying, after the democratic and republican mass conventions have been held. Is Frank sure that one hospital will take care of the "eliminated."

**Hair Falling?**

S. G. Iverson, who has withdrawn from the elimination convention and is an avowed candidate for the nomination of governor on the republican ticket, declares for county option and woman's suffrage among other things. Mr. Iverson will continue a speaking campaign until the primary election.

The bone is liable to be stolen by the democrats and devoured while the republicans are fighting, according to a down state newspaper. No, the elimination process is about over and the bone is still in sight. Every politician who wants to be governor thinks the popular thing is to bat Eberhart, announce his intention and then await developments.

The mass convention for this county to elect delegates to a Minneapolis convention which will place a candidate in the field against Gov. Eberhart for the republican nomination for governor has been called by Ole P. Erickson, as county chairman, his appointment having been made by the Minneapolis conference. It has been some time since Ole was chairman of a republican county convention, but he is well versed in the game of politics—and knows a machine when he sees it.

The country newspaper man who gets up a better editorial page than is displayed from week to week for public perusal in the Deerwood Times has got to go some, and even an ordinary city fellow would have to hustle. Deerwood should appreciate the effort, for it takes lots of hard work to produce anywhere near like a perfect newspaper in a town of that size, and it is the newspapers that reflect the sentiment of a community in which published. More people know that Deerwood is on the map today, on account of its newspaper, than would ever have discovered the fact had it not been for them.

### WATER AND LIGHT BOARD

Bill of Cuyuna Range Power Co. for February Current, \$1,691.93, is Allowed

The water and light board met with Commissioners Rowley and Weidemann in attendance. Fred Gruenhagen, of 623 Maple street, appeared for the adjustment of his January electric light bill. The secretary reported that the meter had been tested and reported correct. Mr. Gruenhagen was advised to pay the bill as rendered.

The secretary reported having received credit on lamps purchased in excess of contract. The bill of the Cuyuna Range Power company for current in February, \$1,691.93, was allowed and ordered paid.

The secretary's reports of the water department, pumping station and distribution of labor in the electric light department were read, accepted and ordered filed. The matter of water service for 1406 Laurel street was brought up and referred to Commissioner Weidemann to report on at the next meeting.

The secretary was instructed to cause the rules governing sprinkling to be printed on the receipts. The rates for the Hayes building were fixed at \$40 a year.

The following bid for a lease of the pump house grounds was opened and read: F. C. Reese, who offered to pay \$25 a year for the use of the grounds, to clear away all brush and rubbish, to fence with wire fence, to not remove any ground or anything of value from the premises, to allow the city access to the grounds to improve the sewer or for any purpose and will not remove any improvement when the lease expires unless requested to do so. The board deferred action on the bid until the grounds had been inspected.

The lease is to be acted on March 14.

The ordinance governing the water department was again discussed. The commissioners are to meet March 14 to again discuss the ordinance.

The secretary was instructed to submit delinquent accounts to the city attorney for collection. The board then adjourned.

## NEWS FROM THE TRAINING CAMP

Manager Connie Mack's Athletics Beaten in a Practice Game at Jacksonville, Fla.

### LES. BUSH MAY GO IN THE BOX

Graves, Newly Signed Indian Pitcher, Who has a World of Stuff, to be Given Trial

At Jacksonville, Florida, the Philadelphia Athletics have established their spring training camp and Roy L. Bishop, sporting writer of a Jacksonville paper, describes the practice games played and mentions Joe Leslie Bush, last year's world's series star and Joe Graves, the Chippewa Indian recruit who signed with Connie Mack this year. The article states:

The second game between the Philadelphia Athletics and the St. Louis Cardinals will be played at Barrs Field this afternoon at 3 o'clock. Manager Mack is determined to have revenge for the punishment administered to his team yesterday, and will make a strong effort to land the contest.

Manager Huggins is also anxious to leave this city with a clean record, and will do all in power to make it two straight. His men are chock full of confidence after the splendid victory of yesterday and are determined to win again today.

Judging from their work yesterday Huggins has gathered a promising lot of youngsters together, some of whom are bound to be heard from in the big show.

George Whitted will be seen at third base again today, and if he plays anything like the game he did yesterday, he will cause consternation in the Athletic camp. Whitted proved yesterday that he is just as good as ever, and there is no doubt that all of his friends will be on hand again today to see him perform for the last time.

It is possible that Manager Mack will send Eddie Plank and Joe Bush to the box today in an effort to win the game. Graves, the newly gained Indian pitcher, who seems to have a world of stuff, is also likely to receive a trial.

Hagerman and Williams will likely do the twirling for the Missouri outfit, and will try to follow the example of their predecessors of yesterday and hold the White Elephants scoreless.

The umpiring will again be in the capable hands of Dominick Mullane and W. A. McKee both of whom have given perfect satisfaction in the games that have so far been played. The game this afternoon begins at 3 o'clock, and there will be no advance in prices, the admission being the same as that of the regularly scheduled games.

### TABERNACLE MEETINGS

Building to Seat 2,000 to be Built—First Service Easter Sabbath Afternoon

"The Horton Headlight Commercial," one of the leading papers of Horton, Kansas, has the following to say of the Lowry-Moody revival that recently took place in that city:

"All small town history generally dates from some significant mile post in the growth of the community. Twelve years ago Horton had a most disastrous shop fire and for years everything dated from that event. Therefore, it is not unreasonable to believe that for a number of years to come, things in Horton will date from the Lowry-Moody revival. For this religious movement, beyond a doubt, has made a deeper impression upon our city than can be measured. It is not alone because 1,250 persons professed Christ, nor because \$1,650 was voluntarily raised right in the midst of hard times and given to the revivalist. The reason for this lasting impression is that there is hardly a home in Horton today which was not touched in some manner or other by the tabernacle meetings.

"At one time or other, beyond a doubt, four-fifths of the inhabitants of the town attended some of the services. Persons who hardly knew what the Bible looked like, are learning new truths from it every day. Hundreds of people who were not converted have been awakened to the good done by the church, and have resolved to attend church, at least more or less regularly. Had there been no actual conversions, the great sentiment for better things which the meetings have awakened, these alone would have been worth all the cost.

"Horton will not only have a greatly increased number of Christians in response to the Lowry-Moody meetings, but it will also have a better moral tone, it will become a better home town—it has taken a great stride in advance, and made material progress that could have been gained in no other way. It is not too much to say that the big revival just closed was Horton's Greatest Event."

These two men, leaders in revival methods, will begin meetings in Brainerd under the direction of the different churches, April 12. A tabernacle will be erected on South 7th street with a capacity of 2,000. The first service will be Easter Sabbath afternoon.

## C. D. JOHNSON'S VERSATILITY NOTED

Y. M. C. A. Secretary at Arrowrock, Idaho, Wants Him for Fourth of July Address

### ALSO TO PREACH ON SUNDAY

Joe W. Flickwir, Formerly of Brainerd, Writes an Entertaining Letter to Senator

The versatility of Col. C. D. Johnson is being recognized in various places and the latest demonstration to bob up is a request from the Young Men's Christian Association secretary at Arrowrock, Idaho, that the eloquent colonel deliver a Fourth of July address to the Idaho people at their camp near the highest dam in the world and also to preach on the Sunday following. The colonel wondered exceedingly why a lot of people should be clustered around a dam, especially Y. M. C. A. enthusiasts, until he read the letter which the Dispatch publishes herewith:

The opening paragraph started out in these welcome words, "Enclosed please find check for \$1 in payment for prescription sent me some days ago." That would put any one in a pleasant frame of mind. Then followed this communication from Joe W. Flickwir:

"I am the head push of the Y. M. C. A. club and therefore just about the head booster for the village of the highest dam in the world. Before I forget it, I am giving you a cordial invitation to deliver the 4th of July address during the noon hour on Saturday, July 4th and also to stay over on Sunday and preach for and to us on Sunday. If you can stand us, we can stand you. We had our Chief Justice of the Supreme Court preach one Sunday night.

We operate the only government railroad in the United States, have 15 men in that department and about 600 in all departments, have five mess halls and nine meals, only work eight hours, so if a man can stand for it and can pay for it, he can get on the outside of nine meals in 24 hours.

Here's hoping you can fill your dates. We will have a baby show, a No. 1 baseball game, red lemonade free moving picture shows on the Fourth.

I am glad you are boosting old Brainerd as a sideline from your duties as senator. A year ago last fall when I was on my trip to Minnesota, some of my friends and enemies nominated me as coroner on the republican ticket. I carried this camp by storm, all the ladies voting for me, but the Dames up the county defeated me by a few votes. The man elected refused to accept the important position. So now we are without a coroner, but we do not need any help in that line as there are not any dead ones in this camp, not on the payroll that any one can see.

### "MICHAEL'S" MILLINERY DEPT.

This Popular Store is Featuring an Opening of New Spring Creations in Women's Headwear

"O my, how glad I am to see the new hats. I am so tired of my winter hat for our long winters compel us to wear them so long," said a woman when she saw the new spring millinery displayed. Thus, while millinery openings are held early they are in response to a most natural demand.

Today and Wednesday "Michael's" are featuring a showing of the new spring exclusive millinery and great interest is being shown by the women of the city. As usual there is sufficient change in style to cause interest for women want to know what all the new effects to be, are.

One of the features of this opening is a window which was trimmed by Mr. G. A. Beale in his usual masterful way. This window exhibits some very characteristic models.

## MUSIC AND DRAMA

## At the Columbia

"The Lady of Mystery," the two reel domino feature, is a play of the colonial days of this country and was much enjoyed by the audience at the Columbia theatre last night. It will be repeated this evening.

The most beautiful film on the whole program is "The Sacrifice," taken in southern California on the rugged Pacific coast. The comedy, "The Rival Barbers," is very instructive and gives the barbers of the city a lot of new and unheard of pointers.

The orchestra is preparing their program for Wednesday and Thursday. Some of the good old tunes have got them guessing. One especially, the Hardanger melodies, has the American ragtime backed off the boards and by the way, the tune is several centuries old, showing that syncretized music is no novelty.

Keeps Your Stove  
"Always Ready for Company"

A bright, clean, glossy stove is the joy and pride of every housekeeper. But it is hard to keep a stove nice and shiny—unless Black Silk Stove Polish is used. Here is the reason: Black Silk Stove Polish sticks right to the iron. It doesn't rub off or dust off. Its shine lasts four times longer than the shine of any other polish. You only need to polish one-fourth as often, yet your stove will be cleaner, brighter and better looking than it has been since you first bought it. Use

BLACK SILK  
STOVE POLISH

on your parlor stove, kitchen stove or gas stove. Get a can from your hardware or stove dealer. If you do not find it better than any other stove polish you have ever used before, your dealer is authorized to refund your money. But we feel sure you will agree with the thousands of other up-to-date women who are now using Black Silk Stove Polish and who say it is the "best stove polish ever made."

LIQUID OR PASTE  
ONE QUALITY

Be sure to get the genuine. Black Silk Stove Polish costs you no more than the ordinary kind. Keep your grates, registers, fenders and stove pipes bright and free from rusting by using BLACK SILK AIR-DRYING ENAMEL. Brush free with each can of enamel only.

Use BLACK SILK METAL POLISH for silverware, nickel, tinware or brass. It works quickly, easily, and leaves a brilliant surface. It has no equal for use on automobiles.

## NEWS AND COMMENT

Of Local and State Nature Gleaned  
From Bright Exchanges Boiled  
Down for Dispatch Readers

Frank Kruger slipped off the ice into the water at Sibley lake Friday while putting up ice. Timely arrival of help saved him from drowning.

Pequot is to have a new flour mill, the M. & I. having granted the request for a spur and another side track.

A St. Cloud man has confessed firing his home because his wife, who is at the point of death, would not deed the home to him instead of the children.

Minneapolis is importing eggs from China. While these are China eggs, they are not china. The Minnesota hen is setting up and taking notice.

Fred Hoftaling, one of the old settlers of the county, died at his home near Jenkins on Friday, the body being taken to Iowa Falls, Iowa, for interment.

The Pillager Herald feels compelled to remark, owing to the discussion on the subject in Brainerd, that "mayors, like many other people, generally talk too much."

James L. George has been elected Exalted Ruler of the Bemidji Lodge of Elks. Mr. George was a former Brainerdite and his friends here know he will make the Elks go some during his term of office.

Frank Hagen disposed of five wolf pelts to E. W. Johnson at Pequot. The bounty and the price of the pelts made a nice sum, and the Pequotian says Mr. Hagen left on a two weeks trip through the Dakotas.

A new bank to be known as the Farmers' State Bank of Pequot has been organized in the town of that name. Thirty stockholders having resources of over \$250,000 will compose the directorate, says the Pequotian.

About 150 new comers, counting men, women and children, have already moved into Crow Wing county in the vicinity of Pequot this year, 23 getting off the Wednesday afternoon passenger train at that point. No better county in the state to come to.

An unknown man was found in a straw stack near St. Cloud with his feet so badly frozen that his toes on one foot were entirely gone. He was taken to the city and an examination disclosed that he was carrying the eight missing toes around in his pocket.

Motley has some blind-pig excitement, and as a result of the "mode" of procedure by the detectives in getting the evidence the Pillager Herald says sentiment is against the Citizens League "and it is expected that Motley will go wet this year by a large majority."

H. I. Davey, a Wadena county farmer, took 180 tons of alfalfa off a 40-acre tract in the three cuttings last year. This year he will have 100 acres of the oft bearing grass, and nearly 100 other farmers of that county will also part from five to ten acres of alfalfa.

Heavier Amusement.  
"Is this the man we are to initiate tonight?" asked the illustrious conductor.

"It is," replied the outside guard. The illustrious conductor walked around the 350 pound candidate, inspected him carefully and turned to his assistant.

"Put the goat back," he said, "and bring me a mule."—Chicago Tribune.

THIS NEW MEDICINE  
SAVES YOU MONEY

We are druggists right here in your town and make a living out of the drug business, but it is because people have to have drugs and not because we like to see people suffer—we don't. Our duty is to render the best service we can, and when someone is ailing we are interested in seeing them take the best medicine there is for their particular trouble. We don't recommend "cure-alls," as we don't believe there are such things. We don't want you to spend more than you have to. Some of you get small wages, and when you're sick, none at all, and you should get the most you can for your money.

We recently came across a new remedy for increasing strength and building up people who are run-down and emaciated. We know that a slight trouble sometimes grows into a serious one, and to stop it in the beginning, will save you money in the end. This new compound is called Rexall Olive Oil Emulsion. It is the best remedy, when you are run-down, tired out, nervous—no matter what the cause. It doesn't merely stimulate you and make you feel good for a few hours, but takes hold of the weakness and builds you up to a healthy, normal condition. It is a real nerve-food tonic, and builder of good blood, strong muscle, good digestion. It contains Hypophosphites, which tone the nerves, and pure Olive Oil, which nourishes the nerves, the blood and the entire system. Pleasant to take. Contains no alcohol or habit-forming drugs. We promise that if you are not perfectly satisfied with it, we'll give back your money as soon as you tell us. Sold only at the 7,000 Rexall Stores, and in this town only by us. \$1.00.—Johnson's Pharmacy.

## British Girls.

From their nicely poised chin to their long, swaying legs, British maidens are restraint personified. They are civil, even kind. They talk the most graceful sing-song. Sometimes they even go so far as to smile archly. But never for a moment is there a suggestion that that frank, merry boyishness which is born and bred in the American girl.—New York Tribune.

GIRLS! GIRLS! TRY IT,  
BEAUTIFY YOUR HAIR

Make it thick, glossy, wavy, luxuriant and remove dandruff—Real surprise for you

Your hair becomes light, wavy, fluffy, abundant and appears as soft, lustrous and beautiful as a young girl's after a "Danderine hair cleanse." Just try this—moisten a cloth with a little Danderine and carefully draw it through your hair, taking one small strand at a time. This will cleanse the hair of dust, dirt and excessive oil and in just a few moments you have doubled the beauty of your hair.

Besides beautifying the hair at once, Danderine dissolves every particle of dandruff, cleanses, purifies and invigorates the scalp, forever stopping itching and falling hair. But what will please you most will be after a few weeks' use when you will actually see new hair—fine and downy at first—yes—but really new hair growing all over the scalp. If you care for pretty, soft hair and lots of it surely get a 25 cent bottle of Knowlton's Danderine from any druggist or toilet counter, and just try it.—Advt.
